

PROPOSAL

FOR THE DEPLOYMENT OF
A COMPLETE SCHOOL
MANAGEMENT SYSTEM

Introduction

The importance of information technology (IT) in education, whether it is used to support teaching and learning, or to develop student IT capability, or to support educational management, is now recognized throughout the world.

In our world today information technology is fast influencing how business is done and the ease with which one can do it. Sharing of information and transactions are now carried out across boundaries without any need for contact.

Problem/Gap

Education system is one of the sectors where Information Technology is underutilized. Despite the rise in the use of information technology, it is still a sore point to see how the education sector refuse to take advantage of this emerging trend in information technology. Furthermore, a need to catch up with the rest of the world in information technology means providing or utilizing an educational management tool that leverages on information technology.

A tool that leverages information technology such as a complete school management application is the perfect fit for this purpose. A complete school management application recognizes that some aspects of a school, such as student enrolment, student records, school fees payment, attendance, performance report and a host of other school processes are still being done manually by the schools. Thus, for any school that wants to compete favourably in the future, automating all these processes and more will be highest on their priority list.

Our Solution

The complete school management automation system is introduced to your school as EruditePortal. EruditePortal is an online School Management Software that integrates your daily school activities through an interphase that incorporates the students, teachers, parents and the school admin.

With unlimited features, EruditePortal is a complete package meant to take care of your school needs from aiding in smooth school administration to effective monitoring.

About-Us

We are a community of hand-picked designers, developers and digital talents, available to work on your project. From logo web development, to Software development, to graphics design, we are committed to all the digital services your business needs, so you can focus on growing your business.

EruditePortal

EruditePortal is a pioneering effort of Soft-Apps Solutions Concepts which is known for excellence and commitment to deliver unique and world class solutions. EruditePortal is aimed at automating the entire school administrative process.

The objectives of EruditePortal will mainly be to:

EruditePortal is a pioneering effort of Soft-Apps Solutions Concepts which is known for excellence and commitment to deliver unique and world class solutions. EruditePortal is aimed at automating the entire school administrative process.

The objectives of EruditePortal will mainly be to:

- Improves managerial efficiency and gives you more time to focus on what is really important, the students.
- Prevents errors and saves costs associated with these issues.
- Report cards are generated in seconds, saving your school cost normally incurred during the several days of report card preparation.
- Cut costs associated with paper-based record-keeping like cost of receipts, report booklets, storage of paper records, etc.
- Provides the parents an online payment option which makes it easier for parents to pay fees faster and conveniently.
- Boosts the tech-savvy reputation of your school which in turn brings in more students and revenue.
- Accessibility by authorized users from anywhere in the world using any internet connected device.
- Makes it easy for administrators to monitor their school's activities and access vital information.
- Forget sorting through bulky file cabinets. With EruditePortal all records, even those from decades ago, are instantly accessible.
- Employees can work from anywhere, and parents can monitor the progress of their wards easily.

About-Us

We are a community of hand-picked designers, developers and digital talents, available to work on your project. From logo web development, to Software development, to graphics design, we are committed to all the digital services your business needs, so you can focus on growing your business.

Key Features

EruditePortal is a complete school management package that covers all aspects of the school management as highlighted below.

- ✓ **Students/Staffs Enrolment** – register students and staffs to the school at any time.
- ✓ **Student Information System** - Get easy access to student particulars, their grades, profile, parents' info, and many other reports, any time.
- ✓ **Class Time-Tables** - Create daily/weekly class schedules for each class. Teachers and students can view their class schedules.
- ✓ **Class Attendance** - EruditePortal provides easy to use interface to enable class teachers take and track daily attendance of students in their classes.
- ✓ **Create & Manage Fees** - Create and collect different fees for different sessions, terms or classes. View various fee reports
- ✓ **Messenger/Notification** - Pass important information to your students, staffs or parents, with the integrated internal messaging system.
- ✓ **SMS & Email Messaging** - Sending SMS/Email alerts is one of the best feature of EruditePortal. It empowers you by reducing distance between your school and parents/students.
- ✓ **Grading System** - Configure various grades and grading system to be used in your school's exams reports.
- ✓ **Examination & Assessments** - Record students' exam and assessment marks for different sessions and terms. EruditePortal automatically computes results for each student
- ✓ **Report Card** - View detailed class-base or student-base report cards for any exam.
- ✓ **School Owners** - As a school owner, EruditePortal gives you required administration tools to take total control of your school, staffs, students, financial and much more
- ✓ **Multiple User Access** - Create unlimited users with various roles such as Admin, Staffs etc. There is no limit to number of users
- ✓ **Parents Portal**- Parents can access the portal to view their children's information, track and pay fees, keep track of their children's performance, access exam reports and access other information.
- ✓ **Students Portal** - Students can access the portal to view their profile, track and pay fees, access exam reports, keep track of their performance and access other school information.

About-Us

We are a community of hand-picked designers, developers and digital talents, available to work on your project. From logo web development, to Software development, to graphics design, we are committed to all the digital services your business needs, so you can focus on growing your business.

- ✓ **Teachers Portal** - Teachers can access the portal to view their profile, check their classes assigned, view their students, assigned subjects, mark attendance, compute exam reports and access other school information.
- ✓ **School Planner** - Create and manage school sessions, terms and classes. Setup active sessions and terms at the start of each term.
- ✓ **Online Payments** - EruditePortal provides you the flexibility of collecting payment for any fee. Payments can be made seamlessly on the platform.
- ✓ **Invoice & Receipts** - EruditePortal automatically generates professional looking Invoices/Receipts for each fee. Parents can also view and print their invoices.
- ✓ **Browser Based** - EruditePortal is built with state of art technology to guarantee it is fast, secure, and accessible even on slow internet connection. It is platform independent and can be accessed from multiple devices over a network using a Web Browser, even on mobile devices.
- ✓ **Backup**: EruditePortal allows you to backup your school data in the case of system breakdown. The backup is easy as just clicking a button. Files can be saved to drive or disk.

To give a better understanding of what each of the solution module offer, a demo presentation would be made on your request at your convenient time.

Financial Implication

The Deployment and setup fee of the EruditePortal is free but a termly charge per student would apply based on the desired plan.

Plan	Bronze	Silver	Gold	Custom
No. of Students	1 - 100 Students	101 - 500 Students	Above 501	To be discussed
Fees	₦500 per Student termly	₦400 per Student termly	₦300 per Student termly	

Project Timeline

The deployment and setup of EruditePortal would take approximately 3 weeks.

Who we are

Soft-Apps Solutions Concepts (SASC) is an IT Solutions and Consulting Company with years of experience in providing businesses with Web and Mobile Application Development, Websites Development, IT Outsourcing, IT Support and IT Consulting. At Soft-Apps Solutions Concepts, we hold one goal above all others: 100% client satisfaction.

“Digitalizing Human thoughts and activities”, we pride ourselves in providing the very best personalized solutions for our customers to achieve their goals. We work closely with each client to ensure a long and prosperous relationship. Our dedicated team of highly experienced app developers and consultants have successfully completed a number of projects for various sectors and business domains.

Why Choose SASC

If you're too busy worrying about technology to focus on running your business, you should know there's a better way.

- 1. We Care** - We care for our clients' business as our business. We think and act like business partners, not just as advisors. We share our clients' aspirations, work to understand their reality, and align our incentives with their objectives, so they know we're in this together.
- 2. In-depth knowledge** - With in-depth knowledge of our clients' industries, we know the business needs and technology challenges they face. The values and expectations we set for ourselves allow us to surpass our competitors. Efficiency and attention to detail give us an in-depth understanding of what solutions and services would be best benefited by the client.
- 3. Team of Experts** - By outsourcing the management, maintenance and support of your business IT to Soft-Apps Solutions Concepts, you can finally take the stress out of using the technology your business counts on every day. With a customized IT solution from our team of experts, you'll finally begin to think of your technology as a strategic investment, rather than a constant drain on your time and resources.
